Professional Summary

- Internet Systems student at UNICAP with hands-on experience in first-level technical support.
- Seeking an opportunity to further develop technology skills while contributing to user support and digital solutions.
- Communicative, organized, self-taught profile with a strong interest in agile methodologies.

Experience

SS Sanel Saúde

IT Support Intern

Recife, PE

Sep 2025 – Feb 2026

- Delivered first-level technical support for hardware, software, and internal systems, helping users resolve day-to-day issues efficiently.
- Supported the team's transition from manual workflows based on Excel spreadsheets and Word documents to an online ERP system.
- Registered, updated, and organized operational data in internal systems to help maintain accurate and reliable information.

Jornal do Comercio

Administrative Apprentice

Recife, PE

Dec 2022 – May 2024

- Processed and verified invoices in the TOTVS Datasul system with accuracy and attention to detail.
- Created and maintained tracking spreadsheets to support administrative routines and information control.
- Organized documents and supported vendor service and materials intake, contributing to smooth daily operations.

MoviePicker

Front-end Development

Personal Project

- Built a web application that generates random 21st-century movie recommendations based on a curated list from The New York Times.
- Strengthened front-end development skills through API consumption, DOM manipulation, and interface structuring with HTML, CSS, and JavaScript.
- Used Git and GitHub for version control, code organization, and project documentation.

Skills

- **Technical:** Microsoft Office Suite (Word, Excel, PowerPoint), User Support, CRM, TOTVS Datasul, Java, JavaScript, HTML, CSS, React, Next.js, Node.js, MySQL, PostgreSQL, Git, GitHub
- **Languages:** Portuguese (Native), English (C1 – Advanced, EF SET 68/100)
